

Dear Friends,

It's difficult to imagine Columbus Dog Connection is 20 years old. We started out "just helping a few dogs" at overcrowded rural shelters and two decades later we have saved thousands of pets, spayed/neutered thousands of shelter/rescue and owned dogs/cats and have many stories to tell about our work helping to improve the lives of Ohio's pets.

Our rescue work has been a labor of love. Regardless of the victory or difficult circumstance, the common thread with everyone that has a hand in our history, is our unwavering love for our pets.

Our goal remains the same, to go out of business. With your continued help, our last day of rescue will be the best news ever because saving homeless dogs and cats will no longer be needed. Enjoy this issue of memories.

If you have adopted, volunteered, donated, or advocated on our behalf, we thank you for being part of our stories, our history and our life saving team.

If You Are Cat Person, We Need Your Help

We have CATS too! Just like all shelters, the requests for cats to enter our program exceeds homes available. Cats tend to stay long periods at our facility. During that time, we become very familiar with our cats' cute personalities, quirks, and needs. Many of our cats are older or have special medical needs.

We become intimately familiar with their needs and accommodate them to the best of our ability and finances. Not all our cats are special needs, but please help spread the word about these special cats. We have little cliques, nemeses, bff's, and dysfunctional little families within the office. Never a dull moment.

Some of our residents are on customized diets due to age/medical condition. Some of our cats have had full mouth dental extractions and need canned food only. Their food budget is costly. And we can't forget the ferals that we feed outside as well as the ones that have decided to live inside with us. No kidding, we have one feral that comes to our front door when she wants in. We make sure she has a clear path and she comes in for several days of respite! Please help us spread the word about our special cats as well as our general population cats.

In essence, we have a small cat shelter that requires much staff time, funds for special diets, general and specialized veterinary care, medications, and supplies.

Katherine has cystitis, caused by stress. She needs \$2 of medication per day which would likely decrease when in a home & less stressed.

Chloe has food allergies and is on a strict diet. Her food runs about \$50 for 5 weeks. The sweetest girl.

Ripley is FIV+ and may have bouts with asthma, BUT she is the BEST kitty ever!

Timmy is deaf and sometimes cranky when other cats sneak up on him as he doesn't know they are there.

The Not So Odd Couple

Julia, (front) & Fencie were dumped as kittens. Julia was tiny & so shy. She connected with Fencie, who has never warmed to people. (see his front leg under her). He grooms her and they play. We would love to keep them together.

Uncle Barry & Henry, Together or Separate

A gang of two was formed when this duo met. Henry was young when he met already older Barry. We like to say Barry is a little selective in who he befriends. He will do best as a single kitty or adopted with Henry.

Sheba always looks like she is sticking her tongue out.

Sheba was left with this note. We had to remove all but 6 teeth.

Resident Princess

Princess Scrappy was formerly free roaming and rescued by a kindly senior citizen who could no longer keep up with her grooming. Scrappy is one of our resident seniors with on going needs. Scrappy often has matted hair which requires a lot of grooming. She's 15 years old.

Resident Senior Kitty Duo

Fowler & Herbie are a clique of 2! Fowler is 14 & Herbie is 18. They are both low key and love nothing more than to snuggle. Herbie sometimes has enough but you would be amused to watch Fowler work his way for a snuggle.

Thank you Joyce & Bill

When involved in a not-for-profit, you are surrounded by the best people.

Think of your best day volunteering, add saving dog/cat lives to the mix and you have purposeful nirvana. Joyce and Bill donated our spay/neuter truck, affectionately known as "The Andy".

Named after their beloved pooch, our truck has allowed us to spay/neuter thousands of dogs/cats throughout Ohio. It is an understatement to say the support we have received from Joyce and Bill has played a role in every success we have.

Heartfelt thanks to this pair of dog lovers. Their generosity is only outweighed by their kindness.

Memories

Ellwood represents all the homeless dogs that needed us.

Mix, rigid, 32lbs, sweet, loves attention, was initially shy & afraid, but is really coming out of her shell, best in a home w/ a confident dog, loves to romp with her foster brother go on walks, really well-behaved on the leash, does not like to be left home alone, but as long as her foster brother is with her, she is fine, when she greets you at the door, the very definition of a wiggle-butt

Beagle, Daisy, female, 5 yrs, 25lbs, Daisy is the essence of beagle cuteness! found as a stray, she is very calm, laid back, but alert and interested in her surroundings, loves walk, good on leash, easy going

Chia Mix, Tia, 1yr, 15lbs, great with dogs, playful, always wants to be with you, does ok in car, likes walks, knows sit, working on high five, does well in crate, best in home with another dog

Chihuahua, Eris 5 monthths, female, well adjusted, 3.5 lbs, will be small (6lbs), playful, affectionate, smart, fenced yard & another small dog in home, older kids, plays chase, lap dog, loves to

Pit Mix, Patrick, 56lbs, 2 yrs. Patrick is a treat hound, will do anything for a treat, obedience trained and has some agility, but would really prefer to be your snuggle buddy, lives with a smaller foster sibling and she loves him, he would be a great dog to pair with a shy dog as he is very confident, loves bones, walks, playing with his sister

Chihuahua Mix, Mrs. Flores 9 yrs, 10 lbs, a one special dog, has overcome physical difficulties when hit by a car, taken to shelter, has had two surgeries and is now walking and playing, she even runs sometimes, loves belly rubs & giving kisses, she loves everyone- dogs, cats, people, she would do best in a home without small kids or rambunctious dogs, due to her orthopedic surgeries, loves going on walks, playing with toys

Mix, Cheese, male, 54lbs, 2yrs, does well in his crate, loves to investigate & be active, good on leash, happy boy, great w/ dogs

Ricki, 1yr, sweet, young single Mom living on the street, doing the best she could, looking for a real home to call her own

Jack Russell, Jasmine, 5 yrs, 14lbs, an alpha personality so needs leadership, makes a "rumbling" noise, usually when petted in just the right spot, she does well in play groups of multiple dogs but again, her alpha personality makes it important she be the only dog in the home because she can become intolerant of other dogs in her home, walks best on a gentle leader leash, knows "sit" and is working on "down", not the hyperactive Jack Russell you would expect, best in adult home

Mix, Taco male, nice pooch, good w/ dogs, 4 yrs, 38 lbs, sweet, laid back, loves to lay in the sun, good on a leash, enjoys going for walks, Taco loves people & loves kids

Pit Mix, Moon, male, 1yr, 55 lbs, a silly, fun loving dog who enjoys giving & receiving attention ! He's a young, active, big dog with a heart of gold, Moon really enjoys his walks. jogging with his foster family, good w/ dogs, (unknown cats), loves all people, enrolled in kindergarten classes, foster family will pay for you to continue classes

8months, adorable, dumped by someone w/out a heart, left to fend for herself, was flea infested, very playful, loves to be groomed by her cat friend Fencie

Barry, male, 5 yrs, independt but likes a gentle touch, would be great alone or does well with Henry, listed below

Henry, male, a cool customer, 10 months, Mr Confident, loves his big brother Barry

Fencie male, sweet little boy, plays like a rough housing brother with fellow kitty Henry, loves to play on our jungle gym and explore like a typical kitty, sweet w/ all dogs and cats

Chloe, female, 4yrs, a pretty quiet girl that is a nice mix of independent but likes to have her time/attention with you, preferably a no cat house due to food allergies

Ripley 5yrs, the nicest, calmest kitty ever, found fending for herself on streets, such a low key kitty, loves her belly rubbed, loves being near her person, FIV +, asthmatic but not on medication

Sheba, female, small cat, 3yrs, super nice, low key, good w/ cats, dogs, easy going girl

Shar Pei Mix Mike, male, 6 months, nice boy, likes to play, likes to cuddle, he's a leaner..meaning he leans on your legs for comfort and affection

Timmy, 8yrs, very chill, had a difficult journey- dumped out in the country, living under a shed all winter, attacked by other cats, very sweet w/ humans, best in a one or no cat home

Katherine, 7yrs, gentle, quiet, sweet, has cystitis which causes her to strain while urinating, made worse by stress, she has roam of office, but we have many cats, our vets believe when she is in a home her cystitis will go away, we noticed after we placed several cats & there were less cats in the office Katherine until more cats came in, excellent litter box habits

Manson, male, 3-4yrs, this guy has a story, he was hanging around our office and we fed him for months, we were never able to trap him and finally resorted to a drop trap, the grainy picture on our site is from security camera at night, he broke our hearts on this cold night when we could see him peeking in our office, once we trapped him, we gave him a

Help Us **Not** Have a Fundraiser....Yes, You Read That Right

We are great at saving dogs and cats, offering low cost spay/neuter and vaccines, building elevated dog beds and helping other rescues and shelters by sharing our grants and donations. By spending our time hands on instead of coordinating fundraising events, we are able to do so much more to help the dogs and cats get out of shelters, or live a more comfortable life while they are there or prevent unnecessary litters .

With so many fundraisers held by other non profits, we also don't want to compete or spend resources on a fundraiser that will be poorly attended. With limited time, and fundraisers being so labor intensive, the profit rarely merits the time involved in generating the funds. Our community already supports dog washes, celebrity events, dog runs, dog/cat gift baskets, and OSU and memorabilia raffles. Would you want another one of these items or attend another fundraising event ?

But we do need your help. We will never send you a calendar, a key chain, or self addressed labels as we know you would prefer that money be spent on the health issues of a needy dog or cat. **We have been fortunate in not needing a fundraiser for a few years, but now, we are in need.** Most grant opportunities don't cover general operating expenses. We have rent and all the monthly expenses of having a building. Insurance, salaries, health care, repairs and increased veterinary costs have exceeded our yearly donations and deleted our saving. **As you may know, we are shrewd stewards of every penny entrusted to our care.** We thank our donors who come through year after year and ask you to consider our work for your charitable donation.

Your generosity is the key to our success. Your support helps us save the lives of dogs and cats.

Although Meatloaf lived a cold and lonely existence, chained his first 6 years of life, he showed typical dog resilience and loved his new life not being tethered to a chain.

At a nearby trailer park, Mirna and Megan were chasing loose puppies and noticed this big boy tied to a box. Fortunately, Mirna speaks Spanish and was able to talk with the people who owned him. Mirna shared her concern of the dog being chained 24/7 and offered to rehome him. The family refused but agreed to allow the dog to come in at night. With the help of Columbus Humane and other caring folks, it became apparent that his time on the chain had not changed. Due to new tethering laws and Mirna's constant and gentle communication, he was finally surrendered to us in late 2017.

Meatloaf now lives with a loving family and has a huge fenced yard. He sleeps wherever he wants & loves his daily walks. His family tells us they could not have found a more well behaved, loving, goofy boy.

Melvin was from a hoarding situation. He has medical issues it took us 3 hours to groom him because of his severe matting. Melvin has been adopted.

Before
&
After

It took our staff 2 hours to catch Nettie, even in her severely weakened state. She weighed just over 2 pounds and aside from eating and using her litter box, she barely moved for a month. Nettie has the best personality and is fully recovered. Nettie is still looking for a home.

Timmy is a deaf kitty our team brought back from a rural county after hearing he was being beat up by the local feral cats. Timmy loves living in doors and is a laid back guy.

Our Statistics Since Inception

- 2,312 dogs & cats rescued & rehomed
- 4% rate of return of adopted dogs/cats

Average Age of Dogs & Cats Saved

- 21% - less than 4 months (mostly kitten litters)
- 34% - 4 months – 2 yrs
- 27% - 2–7 years
- 18% - over 7 years
- We gave \$80,000 in discounts/grants to rescues, shelters, & low income pet owners
- 8,000 served at our Vaccine Clinic since 2012
- 15,000 spay/neuter surgeries performed
