

09/2020

### Additional costs that may apply:

- Enlarged Uterus Fee (EUF) which can be result of a dog that is pregnant, in-heat, overweight, had multiple litters, or has mild infection - \$30 if under 50 lbs, \$60 if over 50 lbs
- Pregnant or in-heat cat \$10
- Pyometra – (severe infection of uterus), Price is at discretion of veterinarian
- Different Anesthetic fee of \$10 for Boxers; Boxer mixes; pets 7 yrs and older; cardiac patients
- Extra Suture Fee (on an as needed basis) - \$10 usually for obese dogs that require additional suture material
- Cryptorchid (testicles have not fully descended) male dog/cat, cost of neuter plus full price of spay
- If pet is found to be spayed or has reactions after sedation, \$15
- If a female dog or cat is found to be already spayed during surgery, the regular surgery fee will apply
- If a pet does not have written proof (Rabies Certificate on paper, not tags) of a current Rabies vaccine, it will be given on day of surgery, \$13
- Other surgical procedures (additional fees may apply for IV fluids, antibiotics, anesthesia time, pain medication, E-collar)
- Umbilical Hernia, \$20
- Dewclaw removal per side (rear only) for dogs, \$15 - \$30 per side
- Fractious (difficult to handle/restrain) animal, \$10- \$20
- Health Certificates - \$15 with spay/neuter, \$25 without spay/neuter
- Euthanasia - \$25
- Disposal of Body - \$25
- Emergency Exam - \$20
- Cardboard Cat Carrier - \$10

All dogs will be examined before surgery. If older age or health are a concern, we may not perform surgery if we feel they are not a good surgical candidate
